ESSENCE OF BEEF, MUTTON, VEAL & CHICKEN—BRAND AND Co.

"Although these preparations can now hardly be called novelties, we notice them on account of their great value in medical practice.

"They consist of the pure juice of the flesh, extracted by heat and clarified, but not concentrated and otherwise untouched. The juice sets to a thin Jelly as clear as sherry, and the flavour of the meat is perfectly preserved. The first idea of this kind of preparation is due, we think, to Dr. Druitt, and if so, the profession is indebted to him for a very useful combination of food and stimulant. The essences are best used cold, but may also be liquified by heat, and used as encmata. Of course they do not keep long when once opened.

"The same firm prepares concentrated Extract of Beef and Invalid Turtle Soups, both excellent in quality."

HYDROGRAPHIC NOTICE.

[No. 10.]

INDIA, SOUTH COAST.—GULF OF MANAR.

THE following information relating to Pamban (Paumben) Pass is derived from the recent survey and remarks furnished by Mr. Morris Chapman, late I. N., Assistant Superintendent, Marine Survey of India, in charge of the survey.*

[*All bearings are Magnetic. Variation 1° 8' Easterly in 1878.*]

PAMBAN (PAUMBEN) PASS.

Pamban (Paumben) Pass is 1,350 yards in length, its northern entrance being marked by a *red* buoy from which the lighthouse bears E. by S., distant 6 cables ; at its widest part it is 52 yards broad, but at its narrowest it is only 25 yards. The depths in the channel range from 10½ to 15 feet at low-water, but it shoals very suddenly on both sides, so that great care is necessary in navigating vessels through. On the west side of the Pass is the Great Dam consisting of large masses of rock of various sizes, all having a more or less flat surface, and which formerly were part of a causeway which extended from Rameswaram island across to the mainland.

The north face of the dam at low-water is steep-to, presenting a very wall-like appearance, and the mass forms a slight curve near the centre, but all the boulders are somewhat separated, allowing a free passage of water through them at low tide. About 30 feet south of the Great Dam and parallel to it, there is another ridge which extends but halfway between the Pass and Ramen point. It consists of detached lumps of rock partially showing at low-water and is termed the South Dam. The space between the two dams is very foul ground.

To the eastward of the Pass there is also a ledge of rocks, evidently once a continuation of the Great Dam ; it is quite covered at high-water, and there are several patches of rock to the southward of this ledge with varying depths of water between.

At 900 feet from Ramen point which is the west extremity of the Great Dam, there is an opening in the rocks ; this passage, however, is so small and has such a rush of water through it, that even fishing canoes never attempt to pass through.

The approach to the Pass from the northward is clear of dangers ; the land, however, in its vicinity is low, the only conspicuous object being the temple of Parovadum, situated 5 miles E. ½ N. from Paumben. This is the first object seen from seaward, and is a good guide for making the port ; on a nearer approach to the entrance, the light-house forms an excellent mark.

ANCHORAGE.—Vessels should anchor in 29 feet with the light-house bearing S. E. by E., distant about one mile, and Toni-turei temple S. W. ; the holding ground, being mud, is very good.

LIGHT.—In latitude 9° 17' 14" N., longitude 79° 12' 38" E., situated about half a mile to the north-east of the Master Attendant's flagstaff, on a rising ground about 40 feet high is a circular masonry column, from which, at 97 feet above high-water, is exhibited a *fixed white light of the fourth order*, visible all round the horizon to a distance of 12 miles in clear weather.

Southward of Paumben Pass are three islands—Pulli, Pullivasel, and Coorisuddy, completely encircled by a coral reef, the whole forming a natural breakwater, protecting the Pass and the channels leading to it from the violence of the south-west winds. The space between the northern edge of this reef and the Pass forms a fine sheltered anchorage for vessels of light draft in all weathers.

The deepest water between the above islands and the Pass is immediately south of Coorisuddy or to the westward of Mundel point, and is called the Basin, over which there is an average depth of 18 feet, but in one spot is a depth of 21 feet. This Basin, however, is very narrow, being simply a hole scoured out by the action of the water in rushing through the Pass, and consequently is of little value to ships, as it has the Pass to the northward of it with only 10 feet and the Sandbank channel to the southward with only 9½ feet at low-water. To the eastward of the last-named channel there is also a flat between it and Kundugal Gut, with a depth on it of from 10 to 12 feet.

Paumben Town is situated on the western extreme of Rameswaram island, and 1½ miles distant from point Ramen on the mainland. It lies to the south and south-west of the light-house, and the buildings are generally very scattered ; with the exception of the Master Attendant's house and one or two others, inhabited by Europeans, they consist principally of large sized huts made of cadjan (*ejtian*) leaves (the palmyra leaf) ; these structures are, however, remarkably strong, and when well made are very comfortable, keeping out the rain and heat much better than might be expected from their appearance. There are but few Europeans here, but as Paumben is the repeating station for all telegraph messages through to Ceylon, a large establishment of native clerks is maintained.

The inhabitants consist principally of boatmen and fishermen ; some of whom find employment in carrying coolies over to Ceylon, and others in supplying pilgrims who visit the temple of Rameswaram. Of late years, as the traffic through the Pass has so largely increased, many native merchants have established themselves at Paumben. The value of imported goods in the years 18 6-7 amounted to Rs. 10,2,272

There are also a large number of coolies who remain

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, Nov. 9TH, 1878.

QUITENESS is still the prevailing characteristic of all of our markets, and the belief is now pretty generally established that we shall see little improvement until after the Christmas and New Year holidays. There has been less doing in Imports this week than last, and Exports cannot assume any degree of magnitude until the new Crops come into market. Seeds and Wheat are in such small supply that shipments are only on a very moderate scale, although usually by this season of the year a large trade is being done in them; this is in great measure to be accounted for by the demand for local consumption, by which prices are kept abnormally high, and which is likely to continue until the cold weather food grain crops arrive at maturity. Cotton was slightly firmer at Home early in the week owing to comparatively light American Receipts, but the Market has since relapsed into its previous state of dulness, and there is no increase in the enquiry here. The arrivals of New Cotton are still confined to small samples of Hingunghaut which do not in any way represent the crop. Freights are still depressed, and no improvement can take place until our exports increase; more disposition has been shown during the week to charter steamers for December-January loading, but only at very low rates; for sailing tonnage there is still no enquiry. With the high rate of Freights ruling outwards it seems probable that exporters will have no lack of cheap tonnage available hence for some time to come. Money continues very easy. Shares are quiet. Government Paper is rather firmer.

MONEY.—No alteration was made in the Bank of Bombay's rates of discount this week at the weekly Board Meeting on the 6th instant. The advertised figures remain at 5 per cent. on Fixed Loans on Government Securities, 5 per cent. on Demand Loans on similar securities, and 6 per cent. on Mercantile Bills. The last Bank return showed increased firmness, the Cash Balance being augmented by 27 lakhs, and now stands at 159 lakhs.

Whilst the trade of the place continues on its present limited scale it is difficult to believe in dearer money, still the requirements of Government will no doubt be heavy, and quite sufficient to prevent any decline. Under ordinary circumstances we generally look for Money beginning to take an upward turn about this time of the year owing to trade requirements, and although these are at present too light to have this effect, the Government requirements for the Afghan Campaign will probably shortly make themselves felt.

At the usual bidding for Council Drafts on India in London on the 6th instant the reduced amount of £200,000 was offered for tender, of which, however, only £102,000 were allotted, viz., £52,000 to Calcutta and £50,000 to Bombay, all in Bills. Tenders at 1s. 7¼d. received in full. The average rate of allotment on Calcutta was 1s 7·25 and on Bombay 1s 7·37. The non-allotment of the full amount, even at last week's rate, was unexpected, as it was thought that Hoo-ee-ed quantities of Bills might have found buyers at some advance, such not being the case, however, it remains to be seen what action the Council will take with regard to their sales for the future.

SPECIE EXCHANGE.—The transactions in Sterling this week have been, if anything, a trifle larger than last, more disposition having been shown by merchants to anticipate their requirements, by fixing Exchange ahead; of ready Bills there are still very few offering, and this must continue to be the case until our Export trade increases. Business opened for the mail on the basis of 1s. 7 7-16d. for demand Bank Bills and 1s. 8 1-16d. for three months' sight credits, and from these rates there was little alteration until Thursday, when the particulars of the sale of Council Drafts were known here, the effect of which was quickly felt, and a decline of 3-16 per rupee established; Bar Silver in London declined in sympathy from 50¾d. to 50½d. per oz. On Friday, however, there was a reaction, and a steadier feeling prevailed owing to the Banks coming out as drawers at 1·16 above the previous day's rates, and on Saturday no change taking place in our Market quiet to dull, closing at rates rupee below our last quotations. We quote:—Bank Bill on demand 1s. 7 5-16d.; 6 months' sight 1s. 7¼; Credits, 3 months' sight 1s. 7¼d.; 6 months' sight 1s. 8¼d.; Documents, 3 months' sight 1s. 7 15-16d.; 6 months' sight 1s. 8 3-16d. The rate for Mercantile Bills on Paris at 3 months' sight is francs 2-11½.

On Calcutta there has been more business doing this week, and the rate for Demand Drafts has advanced to ¼ per cent. premium. For 60 days' sight paper we still quote 99½.

On China the nominal quotation is Rs. 217 per 100 dlrs. for 60 days' sight Mercantile Bills.

The latest quotation from Hongkong for 6 months' sight Bank Bills in London is 3·. 9¼d. per dollar, and from Shanghai 5s. 2¼d. per tael.

GOVERNMENT SECURITIES.—The Market remained quiet and unchanged throughout the early part of the week, but towards the close a stronger feeling has set in, and rates show an advance of from one to two rupees. We quote:—Four's, Rs. 94½; Four-and-a-half, Rs. 94¾; and for the new Four-and-a-half per cent. Loan Rs. 100.

SHARES.—The Share Market has been very quiet during the week, and the fluctuations, with the exception of Spinning and Weaving Companies, been very trifling; of these Alliance have declined Rs. 20, Colaba Rs. 25, Central India Rs. 45, Fleming Rs. 10, Great Eastern Rs. 5, Hindustan Rs. 20, Hyderabad Rs. 30, Manchester and Bombay Rs. 3, Manockjee Petit Rs. 10, Mesarjee Rs. 35, Nursey Rs. 10, Oriental Rs. 50, Prince of Wales Rs. 20, Shoorjee Rs. 50; on the other hand, Bombay United have advanced Rs. 15, Cowlas Rs. 25, Madras United Rs. 40, and Natsed Rs. 50. In Press Companies Bellasy have declined Rs. 30, Bezar Rs. 10, and Dhuleep Rs. 15, and French Press Shares have advanced Rs. 20. In Miscellaneous Shares Bombay Burmah Trading Corporation have advanced Rs. 25 and Landing and Shipping Company, of Kurrachee, Rs. 5. In Bank shares there is an advance of Rs. 1 in National.

PIECE GOODS.—The sales from first hands during the week have again been on only a small scale, about 600 packages altogether having changed hands, consisting chiefly of Grey Shirtings, Jaconets and Mulpoleams at about previous rates to ¼ annas decline. Of White Goods about 2,000 pieces Dorias have changed hands at Rs. 1-7 and in Turkey Reds the only sales reported consists of 1,509 Pieces Cambrics and 2,000 Pieces Jaconets. The demand from up-country has been slack, but the stocks are gradually decreasing, and with an improved enquiry in prospect this can scarcely fail to bring about higher prices. As regards the future there is otherwise no new development to notice. The prices of food grains keep very high, and must do so until the maturity of the new Crops; they are in fact still at almost famine rates, and so long as this continues to be the case we cannot look for a really brisk demand for manufactured goods. As the outturn of the crops will no doubt ultimately be very plentiful, prices for grain must shortly decline; in the meantime, however, fever, which is very prevalent throughout the country is interfering a good deal with agricultural labour, as well as curtailing the demand for Goods. Another adverse influence is no doubt the Afghan war, but this we imagine will affect the markets in Scinde and Bengal a great deal more than in the Bombay Presidency. The shipments from Home of Grey Goods during the month of October show an increase of 13½ million yards for Bombay, 4 million yards to Calcutta and about half a million to Madras, and Colored and Printed Goods show a corresponding increase.

YARNS.—With the exception of sales of about 200 bales of Local Made Twist on the basis of 6¾ annas per lb., for No. 20s no sales have been reported during the week. Stocks are not heavy, and shipments during last month to the East are rather less than in September.

METALS.—*Copper*.—No business has been reported from first hands during the week, the Market continuing very quiet at previous quotations. *Yellow Metal* is also dull, and as with other imports, no improvement can be looked for, until the prices of food grains decline. *Iron* there is also little doing from the offices, although the Bazaar demand is steady.

COALS.—There is a somewhat steadier feeling in the Market, owing no doubt in great measure to the high rates of freight ruling at Home and the consequent impossibility to sell Coals here at a profit at the rates now current. The business of the week consists of a cargo of North Wales per "Austriana" at Rs. 19-4 to Rs. 19-8 per ton and 500 tons of Lords Welsh Hartley Ex. "Prince Lucien" at Rs. 19-8 per ton.

COTTON.—With smaller Receipts at the U. S. Ports early in the week, the Liverpool Market showed signs of a slight reaction, and the quotations for both Mid-Orleans and Fair Dholleras advanced 1-16 per lb. In the present state of trade at Home, however, this advance could not be maintained and rates have recently declined 6-32d. for Mid-Orleans and 4-32d. for Fair Dhollerah. Prices here in sympathy advanced early in the week Rs. 2 to Rs. 3 per candy for New Crop, but latterly this advance has been lost, and there are willing sellers without finding buyers at our last week's quotations. Old Cotton has not fluctuated to the same extent, the limited supplies and the steady buying for the local Mills tending to support the Market, and it seems evident that prices of qualities suitable for local consumption will be maintained, until increased arrivals from up-Country bring about the decline which at present appears to be inevitable.

The Receipts from up-Country during the week have been 3,818 bales against 7,000 bales last year, making a total of 32,945 bales since 1st September against 34,000 bales last year.

The *Clearances for Sea* for the week have been only 2,283 bales, making a total of 722,395 bales since 1st January against 825,331 bales for the corresponding period last season.

NEW CROP.—Accounts from the various growing districts still point to an increase on last season's yield of about 150,000 bales, but it is still too early to form any reliable estimate, as the Crops are generally very backward. Usually by this time of the year arrivals of Hingunghaut are coming into Market in moderate quantities, and sample lots of Oomras should also be arriving, but as yet a few hand samples of Hingunghaut are all that have come to hand to give one any idea of the New Crop, and these do not, it is to be hoped, represent it in any way, as it is much stained and altogether of very indifferent quality. We do not look for arrivals in any quantity to this Cotton or Oomrawuttee until quite the end of the year. Of Broach reports continue very favourable, but of this, so far as present accounts go, we do not anticipate arrivals before the middle of January. Compta and Dharwar are still well spoken of, and of Dhollerah the accounts are favourable and a large crop is looked for.

The transactions reported in New Cotton during the week have been confined to 100 bales of Hingunghaut at Rs. 208 per candy for January delivery, and about 300 bales of Oomrawuttee at Rs. 185 per candy for February, and Rs. 187 for January delivery.

The following are to-day's quotations for full pressed Cotton with the equivalent in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission:—

		₹ Candy of 784 lbs.	₹ lb C. & F.
Old—			
Oomrawuttee	Fully Good Fair	Rs. 194	4¾d.
Do.	Good Fair	" 186	4½d.
Dholleras	Good Fair	" 187	4¾d.
Do.	Fine	" 179	4¼d.
S. G. Dharwar	Good Fair	" 192	4¾d.
Compta	Fully Fair	" 189	4 11/16d.
New—			
Oomrawuttee	Good (Jan. delivery)	" 186	4 15/16d.
Do.	Good (Feb. delivery)	" 183	4¾d.
Hinganghaut	Good (Dec. delivery)	" 207	5¼d.
Dholleras	Good (March delivery)	" 183-3	4¾d.

SUGAR.—*Linseed* is only in moderate supply, but with dull accounts reaching us from the Home Markets, the demand here is very slack and the price for ready lots has declined about 1 anna per cwt., the quotation now being Rs. 6-11 to Rs. 6-12 per cwt. In bond New Crop, small sales are reported for March-delivery, at Rs. 6-2 per cwt.

RAPESEED continues dull of sale on the spot, the selection offering consisting almost exclusively of Cawnpore descriptions, for which the rates are Rs. 6 for Brown and Rs. 7 for Yellow.

The position of Wheat is unchanged. Stocks in Bombay are very small and consist almost entirely of inferior Cawnpore descriptions. We do not expect to receive any good quality until the New Wheat comes to market. We quote:—Best White, Rs. 38; Mixed, Rs. 36; and Hard Red, Rs 35 per candy.

SPECIAL TELEGRAMS FOR THE BOMBAY GAZETTE.

(FROM OUR SPECIAL CORRESPONDENTS.)

THE DIFFICULTIES OF THE ROUTE TO QUETTA.

MITTRI, Nov. 9.

It will be difficult to maintain communications through this district between May and September owing to intense heat and inundations during the rains, when the Katchi plain becomes a morass. Until May the road to Jacobabad is practicable for carts. Great exertions in the meantime to provide supplies and carriage are absolutely necessary. Preparations for the advance of General Stewart's force to Sukkur are progressing, but the supplies for General Biddulph's troops are still backward owing to the difficulties on the Mithankote route.

SIR SAM BROWNE'S DIVISION WARNED FOR SERVICE.

PESHAWUR, Nov. 8.

The following regiments are warned for service at the Khyber under General Sir Sam Browne: Artillery—J/C and F/3 batteries of forty pounders, and the Hazara and 11/9 Mountain Batteries. Native Cavalry—Corps of Guides and the 11th Bengal Lancers. Sappers, two Companies. British Infantry: the 17th, 81st, the 51st Regiments and the Rifle Brigade. British Cavalry: 10th Hussars. Native Infantry: 14th, 20th, 27th, 45th, 4th Ghoorkas, the Guides, and 1st Sikhs.

Assistant Quartermaster General, Major Sanford. Brigadiers:—Colonels Chichester, Doran, Tytler, Macpherson, Appleyard, and Browne. Cavalry:—Colonel Gough. Brigade Major, Captain Coombes. Infantry Brigade Major, Gordon; Captains Farewell, Broome, and Jones. Assistant Adjutant General, Major Smith. Principal Commissariat officer, Colonel Hunt. Superintendent of transports, Colonel Sartorius. Total of the force 10,000.

THE PESHAWUR FORCE.

PESHAWUR, Nov. 10.

General Sir Sam Browne has arrived. Nothing certain is known about the intended movements of the Peshawur force. It is rumoured that two brigades will proceed by Lalpura and two by Ali Musjid.

THE LOWER SIND RESERVE DIVISION.

KURRACHEE, Nov. 10.

D. Battery 2nd Brigade R. A. left Sukkur for Shikarpoor this morning under the command of Major Staveley. They remain there a week or two. A pontoon train arrived at Sukkur on the 6th inst, 500 men of H. M.'s 59th Foot are expected daily. The 15th Sikh Regiment are on their way to Sukkur.

General Stewart is expected there. Lieut. Stevenson, 19th Regt. N. I., is appointed Officiating Deputy Assistant Adjutant General here, *vice* Capt. M. H. Nicolson appointed to a brigade majority at Quetta.

HEALTH OF THE CZAR.

ST. PETERSBURG, Nov. 8

The health of His Imperial Majesty the Czar gives cause for great anxiety, and consequently the modification of Ministerialists has been postponed.

Count Schouvaloff is returning to London to present his letters of recall.

The Russian Government contemplates the establishment of a Consulate at Bombay.

LORD BEACONSFIELD'S SPEECH AT GUILDHALL.

LONDON, Nov. 10.

At the Lord Mayor's banquet at Guildhall last night, Lord Beaconsfield made a speech during which he said the invasion of India was not physically feasible, for, though it might embarrass us by necessitating an increase of expenditure on our army, yet, while considering this an evil and the peculiar circumstances arising out of it, we have taken measures to terminate the inconvenience; and when our arrangements are completed, the source of anxiety will cease and he hoped that we should live in friendly relations with our immediate and perhaps our more remote neighbours. He defended our alliance with Turkey, which, he said, had secured the Euphrates Valley and made Erzeroum the strongest fortress in Asia Minor. The policy of Great Britain was to prevent the fatal supremacy of any individual Power. He defended the results of the Congress, and refused to believe that any Government intends to evade the provisions of the Berlin Treaty. The British Government was determined to enforce to the letter the spirit of the Treaty, and would confidently appeal to the country to maintain it with all our energy and resources. His Lordship then said that the situation was serious but not dangerous, and that if Englishmen were worthy of their ancestors the Empire will never diminish.

STEAMER REPORTS.

GALLE, Nov. 9, 12 P.M.

H. M. S. Daphne left for Aden.

A PROCLAMATION was issued on Saturday, announcing that His Excellency Lieutenant-General Henry James Warre, C.B., Commander-in-Chief of the Bombay Army, has taken his seat, under the usual salute, as Second Member of the Council of this Presidency, in pursuance of his appointment by Her Majesty the Queen.

THE *Englishman* complained the other day that the Martini-Henry rifles issued to the native regiments which went to Malta had been taken away from the Bengal sepoys on their return to India, but not from the Bombay sepoys. This is a mistake. The 9th Bombay N. I. were called upon to give up their Martini-Henry rifles, and are now armed with Sniders again. The reason assigned for changing the arm when a Native Contingent went to Malta was the inconvenience of carrying a supply of a special kind of ammunition for so small a force.

THE Controller of the money order Office in London complains that considerable delay in payment of Money Orders in England often occurs, from remitters in India not being sufficiently careful to furnish the full address of the person to whom the money is to be paid.

THE Secretary of State has approved of the revision of the assessment of 10 villages of the Bhimthadi Taluka of the Poona collectorate at the rates proposed by the Bombay Government. Under the settlement now expired it is very satisfactory to notice that the occupied area of these villages has more than doubled, and the arable assessed unoccupied waste has been entirely absorbed into occupation.

THE Secretary of State has approved of the arrangements made for the Administration of the State of Gondal in Kattywar during the remaining period of the young chief's minority. The State has hitherto been administered by an assistant Political Agent with somewhat limited powers. In accordance with a system which has worked well in the state of Bhownugger under similar circumstances, it has now been decided to associate a native gentleman with the British officer, and to allow the joint administrators to exercise the same powers as would be exercised by the chief personally.

THE following extraordinary statement appears in an unobtrusive paragraph of the *Deccan Herald* of Saturday last:—

"We learn that the Poona Sarvajanik Sabha have asked the permission of the Bombay Government to allow them to send a deputation of their members to the Amir of Kabul for the purpose of bringing him to his senses about the present difficulty with the English."

There is no reason why the Poona Sabha should not try their hand at a modest mission to the Amir, but why permission to proceed has not been sought of this potentate instead of the Bombay Government is not easy of explanation. Their action, however, is too late to be of the service they contemplate; but could they have found an entrance to Kabul, probably they, and not the Amir, would have been brought to their senses. Perhaps, after all, our contemporary is only joking at the expense of the Sabha.

A TELEGRAM to the *Statesman* dated Nov. 7, states that "Mandalay news is highly unsatisfactory. The British steamer Yankeentoung was boarded in Upper Burmah by an armed force, and seven passengers forcibly taken, in spite of the Captain's remonstrances. It is reported that the Resident asks for a sepoy guard. Arrests and imprisonments of men, women, and children are incessing at Mandalay. The King's troops are dissatisfied at not receiving their arrears of pay. The Chief Commissioner delayed his departure to Calcutta."

THE *Madras Times* says:—The B. I. s. s. Oriental, in her voyage from Burma to Madras, suffered very severely from the effects of a cyclone, which she encountered in full force. She was nearly two days' late in arriving at Madras. The vessel bears marks of severe damage, and was more than once in great danger. She shipped much water, and the pumps were kept going a long time. Captain Flower, Commander of the Oriental, writes to the *Madras Times*:—Sir,—In reference to a paragraph in your issue of yesterday, and in justice to the masters of the vessels lost at Vizagapatam, I wish to state that it was impossible for those vessels to put to sea. I left that port on the evening of the 3rd, and the sea from the North-East was then breaking over my decks. With a northerly wind, had they attempted to get under weigh they would certainly have drifted on to the Dolphin's Nose. I do not agree with the meteorological reporter as to the partial and limited nature of the storm. Had that officer been with me he might have materially altered his opinion.

THE *Madras Athenæum*:—We learn that at Coconada the cyclone raged rather severely, doing a great deal of damage among the houses; breaching the canal and levelling down the compounds in a great fear and fled from their houses. The shipping is safe, but a few cargo boats were lost. We have not heard of any loss of life. At North Arcot there was a great deal of heavy rain with a very low barometer. It seems as if the cyclone had just waltzed round Madras, the only symptom of it that we have had was the heavy surf on Monday which capsised a few Masulah boats.

THE *Statesman*:—A correspondent sends us the following account of the assault said to have been committed on the Judge of Futtehgurh by the Sub-Judge. It seems that Pundit Harsahai, the Sub-Judge, had, before the closing of his office on account of the usual *durga poojah* vacation, given orders to all his *amlas* not to leave the district, as he intended to work during the holidays. This order was not well received; and the *nazir*, who had important business in another district, thinking that his services would not be required, went away without asking permission. The Sub-Judge found all the *amlas* in office, save the *nazir*, and thinking that the latter had insulted him, he, as soon as the vacation ended, dismissed him. The *nazir* appealed to the Judge. Anticipating that his order would be cancelled, Pundit Harsahai went to the house of Mr. Saunders to convince him that the *nazir* had really committed a grave breach of discipline. But as Mr. Saunders was busy, he could not see him. The pundit insisted on seeing him. This intrusion displeased Mr. Saunders; altercations ensued; and the pundit struck Mr. Saunders twice. Having refused to apologise he was suspended on the 1st instant. Our correspondent adds, that Mr. Saunders is a man of amiable disposition, and a great favourite with the natives of Shahjehanpur, most of whom, he says, would lay down their lives for him if necessary.

THE *Civil and Military Gazette*:—With reference to the movements of the 1st Division (General Stewart's) at Mooltan, it has been decided that all the artillery except the Mountain train battery go by rail to Sukkur and thence *vis* Jacobabad to Dadur, taking the pressure off the Khanpur, Rajanpur, Dera Bagti, and Sehri route by which General Biddulph's column is going. The Cavalry Brigade, 3rd Native Infantry, and Mountain battery of General Stewart's Division will go by this latter route. An officer of the Quartermaster General's Department, Commissariat and Transport Officers, are now in Sukkur expediting arrangements, and the troops will commence moving from Mooltan as soon as these arrangements are completed.

THE same paper says:—The health of the troops at Quetta just now does not appear to be in a satisfactory state. From private letters received here we learn that both officers and men are suffering from fever, dysentery, diarrhœa, and severe bilious attacks. One informant tells us that upwards of 200 men of the 32nd Pioneers were at the end of last month in hospital, and also about 140 of the 1st Punjab Infantry. The other regiments and detachments in the Quetta fort are equally bad, with the exception of Jacob's Rifles and 2nd Sindh Horse, who having recently arrived may probably escape. The Quetta Fort is being fortified and otherwise put in a state of defence under the supervision of Lieutenant-Colonel Browne, R. E. A deep ditch and several lunettes have been amongst the new works added, and it is now reported to be almost impregnable.

THE *Pioneer*:—The Quetta siege train, now in course of formation at Mooltan, will probably not be ready for the march before the middle of December. General Stewart must therefore postpone his departure until then, or travel without this necessary adjunct to his strenght. Some of the howitzers have not yet arrived even in Bombay, and their carriages have still to be fitted with the necessary gear for bullock draft. Our readers will be pleased to learn that a wonderful rocket is on its way from Woolwich, which is said to be five feet high and ten inches in diameter. Its progress through the air is accompanied by a devilish noise resembling the combined screams of a dozen locomotives, and wherever it alights, desolation and destruction are spread around. It has also this great advantage over the old rocket, that it is more dangerous to the enemy than to those who fire it off: quite a new feature in military rockets, and one not to be despised.

THE *Englishman*:—The 2nd Goorkhas, when they left Dehra on the 28th October on their way to the frontier, were still in possession of their Martini-Henri rifles, so it is to be hoped that better counsels have prevailed, and that the regiment is to be allowed to retain its new weapons, especially now that they have been ordered on active service.

BRITISH troops going up to Quetta will be glad to hear that camps on the most advantageous positions are being prepared for their reception, platforms are being raised fitted with fireplaces for the European soldiery, so that, though under canvass they will not suffer much from cold, and, barring, accidents such as the ignition of tent equipage, they should be very comfortable. It is to be hoped that similar care will be taken of the native troops, who being badly clothed and physically less fitted to stand excessive cold deserve every possible consideration and attention being shown to their comfort.

THE Lahore paper says, that negociations with the important tribe of the Mohmands, ordinarily considered as dependent on Cabul, and in close relation with that State, have been carried on for some time by the British Government, and recent information represents these negotiations as taking a very satisfactory direction. It is believed that the tribe will openly join us the moment our advance is made. We could hardly expect overt action on the part of the Mohmands in our favour, until this event happens, for they are exposed to Afghan attack and are subject to the Ameer's power very easily exercised upon them from their position. As this tribe numbers some 16,000 fighting men, the part they would take in the struggle between Afghanistan and ourselves would be necessarily an important one.

THE *Indian Railway Service Gazette*:—On looking over the Military lists of Bengal, Oude, the Punjab and the N. W., we find that there are at least 1,000 men with military titles holding superior civil appointments, as also a few hundred *lakhms*. As we presume the military acquirements of those distinguished individuals are somewhat motheaten we recommend them to forget their nominal titles of Colonels, Majors, or even Generals, and submit to a little salutary drill, as there is no knowing when they may be required for active service again. As they are scattered over the country they should join each local Volunteer organization, and if any military etiquette prevents their serving under the duly elected Officers of Volunter Corps, they should be attached to the regular troops stationed where they are located for occasional drills. Public opinion in these days will hardly suffer distinctions to interfere with public safety, and all Christians, white or dark, should form a mobilised citizen guard, independent of staff corps practices.

THE Secretary to the Punjab Government in returning from Simla visited the States of Patiala and Kapurthala, with special reference to the offers of military service which have been made by those States, as by others of the Cis-Sutlej, in case of hostilities with Kabul. It is understood that the greatest eagerness prevails in all those States for active service, both among officers and men.

THE *Pioneer*:—Sir Andrew Clarke leaves Simla on the 9th instant and proceeds *viâ* Mooltan to inspect the newly-opened Indus Valley State Railway. The water-way is said to be deficient in many places, and Sir Andrew wishes to satisfy himself by personal inspection before moving the Government to sanction the very heavy extra estimates that have been submitted for additional bridges and culverts. He will probably be in Agra early in December.

THE 100th Regiment at Jullundhur is still suffering severely from the fever, which, in a particularly virulent form, has visited the whole of the Punjab this autumn. Over a hundred and fifty men were in hospital a few days back, and death has been busy, especially amongst the women and children. The Regiment may consider itself fortunate in being ordered to Sialkot at once to try the effects of the only true remedy for Indian seasonal fevers—change of air.

THOUGH it was reported that Lieutenant Judge, Superintendent of the Military Prison at Lucknow, had been exonerated by the Court of Enquiry and ordered to return to his duty, we now learn that a General Court Martial assembled at Lucknow on Monday last for his trial on certain charges. Mr. Boyle, Barrister at-law is Lieutenant Judge's legal adviser. Colonel Gray, R. A., is the President of the Court Martial, while the Deputy Judge Advocate General, Allahabad Circle, watches the entire case, and Major Minto, Brigade Major, Lucknow, prosecutes.

THE *Civil and Military Gazette*:—Considerable consternation has been caused amongst the Staff of the Indus Valley Railway. The Director has issued an order that all officers who have been pleading sickness as a reason for their being granted privilege leave, should, if not fit for duty, be put on *compulsory sick leave*. The Doctors have effected some wonderful cures since the issue of this order: but of course this is only a coincidence.

THE local paper announces that the Lieutenant Governor of the Punjaub arrived at Lahore on the 5th inst.

THE Gwalior correspondent of the *Delhi Gazette* writes:—The state of affairs at Gwalior is looking bad, and indeed so wretched that it is sickening to walk the public roads, owing to distressed and famished stricken people dying along their sides from pure starvation. The other day I came across two heart-rending and sickening scenes. About a mile north of the Fort, I saw what I imagined to be a piece of dark wood lying under a tree, but on approaching it to my utter disgust I perceived it to be a corpse, with nearly all the flesh eaten off the thighs by vultures and other birds of prey. A little farther ahead another horror awaited me, a lifeless and fleshless human frame, while birds of prey were hovering overhead, so numerous that they nearly darkened the heavens.

THE Secretary of State has lately forwarded to the Government of India the reports of two of the first tobacco and drug brokers in London, on certain samples of tobacco manufactured by Messrs Begg, Sutherland and Co., at Ghazipore, and on a paper by the Director of Agriculture and Commerce, N. W. Provinces and Oudh, on the progress made in the experimental cultivation and curing of tobacco under his own supervision at Kamaon, and other similar documents. From these reports there does not appear to be any reasonable probability that Indian manufactured tobacco will find a market in England, both on account of the high rate of import duty charged in the United Kingdom, which would, it is stated, amount on these samples to no less than 4s. per lb., and because the demand is for the light tobacco produced, whether from the above cause or not, is wholly insignificant. Both Messrs. Bremner and Co. and Messrs. Jenkins and Phillips (the firms in question) are of opinion that the attention of those interested in the growth of tobacco in India might with advantage be directed to the cultivation and curing of the leaf for cigar manufacture, in which a large and remunerative trade is, it appears, carried on in Java and other Dutch settlements in the East. Messrs. Bremner and Co. suggest that with this object the services of some skilled persons should be obtained from Java or Sumatra, who should be instructed to bring with them proper seed, and should be permitted to select the most suitable soil for experiment. In the event of private enterprise failing to enter on further experiments with Java tobacco, it will be, the Secretary of State suggests, for the Government of India to consider how far it may be desirable for it to embark in the enterprise.

A REPORT from Muscat states that the country of Oman has been visited with heavy floods of rain this year, and the date crop, which is the chief production of the country and the staple food of the people, has been almost entirely destroyed. Although an absolute famine is not anticipated, there will certainly be much distress. At present the country is tranquil.

THE *Lucknow Times*:—We hear that a case of murder is now pending before the Magistrate of Serampore. The victim was a young girl of a respectable *Koolin Brahmin* family of Bhowanneopore. She had gone to Serampore to witness the celebration of the *Doorgah Poojah*, and while there an old woman employed in the Jubra Mill, named Prosono Moye, kidnapped her on the second day of the *Poojah*. The girl had several gold ornaments on, and the report is that she was killed in a boat near Bydahatty. The woman has been arrested, and the matter is under enquiry.

A NIGHT AT THE VICTORIA THEATRE.

THROUGH the courtesy of Mr. Nazir, proprietor of the Victoria Theatre, we were invited to witness the performance of "Aladdin and the Wonderful Lamp," on Saturday night. The theatre in which, we understand, the Italian Opera which is to arrive here about the 16th is to perform, has been newly decorated, and is undoubtedly superior as regards both space and acoustic properties to the old Theatre Royal. It is seated to hold about 900 people, and possesses a dress circle, stalls, and pit, the decorations, though a trifle gaudy, are in exceedingly good taste, and we understand that a few further alterations will be made under European suggestions. The house was filled with a miscellaneous audience of Mussalmans, Parsees, &c., and to judge by the applause and the laughter even of small Parsee children in their picturesque dresses, the performance was much appreciated. The drop scene would hardly, however, suit English taste. Pourtrayed in their primæval garb

"Adam the noblest man of men since born, his sons
The fairest of her daughters, Eve,"

with a picturesque group of animals somewhat out of perspective around them. The dialogue was carried on in pure Hindustanee, and was impossible but for a finished Hindustanee linguist to follow, and we, at any rate, were tempted to exclaim, "Methinks he protest too much." However even to a European the performance was unique and interesting. The play was founded on the old spectacular drama which took place at Covent Garden years ago, and which in these days of adapted French plays and thrilling stage delusions would find little favour in the eyes of an English public. The three principal characters were Aladdin, his mother, and the princess. The mother instead of being the proverbial old woman of our stage was young and fascinating in a pea green silk dress and trousers. The comic character of the piece was Kurrea, the dumb slave, which was capitally rendered, and reminded us forcibly of even Votees at times. The scenery and effects were good, but the house itself was too brightly lighted to allow of the foot-lights being of much effect. All these defects will, however, be obviated on arrival of the Opera Company, and it remains to be seen whether Bombay will be able to support an Opera or will again fail in the attempt; at any rate, they will have a good house to play in, and if they combine in themselves the elements of success, the blame of their failure will fall upon the public.

In conclusion, we would recommend a visit to the Victoria Theatre, for although the performance cannot assimilate with our ideas, still the novelty of its surroundings both on and off the stage will well repay the trouble of a visit.

BOMBAY.

THE Italian mail steamer Australia left Aden for Bombay on the afternoon of Saturday last.

EXTENSION OF THE BOMBAY TRAMWAY.—We hear that it is now definitively settled to extend the tramway line from Girgaum to Byculla. Mr. Nusserwanjee Parukh's bungalow in Girgaum is to be purchased, and the space made available for a new road for the line.

THE KHOJA LAW COMMISSION.—The Hon'ble Mr. Justice Melvill, who was appointed President of the Commission nominated by Government to enquire into the laws, usages, and customs relating to marriage and divorce among the Khojas, has, owing to pressure of work, declined to act in that capacity. It is likely that Mr. Justice West will be asked to preside in Mr. Justice Melvill's stead.

FALSE EVIDENCE IN THE SURAT EDITORS' CASE.—We learn that on the 6th instant, Mr. Goolabdas Bhaidas, Vakil, Gunputram Harjeevun, and Narronshunker, four of the prisoners in the recent Surat Editors' case, applied to Mr. Judge Pollen at the Surat Adawlut for sanction to prosecute Rao Saheb Motilal Mohunlal, inspector of police, vakils Lull sobhoy and Kirparam, and fourteen others, on charges of giving false evidence in a judicial proceeding. Mr. Pollen advised the applicants to bury all past differences and blckerings in oblivion, and to live peaceably with their fellow subjects. Mr. Goolabdas, with due deference, represented that the recent prosecution against him and others was a proceeding of monstrous iniquity, which had beggared them, and which, had it succeeded, would have got them transported; and that therefore it was to the interest of the public that those who got up the prosecution should be punished. The judge thereupon told the applicants to present separate applications, giving in detail the assignments of perjury separately against each of the persons against whom it was intended to proceed.

REFUSING TO PAY TRAMWAY FARE.—On Saturday James Bremner was fined Rs. 10 by Mr. C. P. Cooper on being adjudged guilty of refusing to pay his tramway fare, and assaulting the conductor of a tram car.

A BREACH OF THE LIQUOR LICENCE.—Rustomjee Dadabhoy, a wholesale liquor dealer, was on Saturday last fined Rs. 20 by Mr. C. P. Cooper, for effecting a breach of his liquor licence, by selling a smaller quantity of liquor than he was authorized to sell after sunset.

DEFRAUDING THE B. B. & C. I. RAILWAY CO.—A Pardasee, named Adiah Balshund, was on Saturday last fined Rs. 10 by Mr. W. Webb, for defrauding the B. B. and C. I. R. Company, by travelling by the up mail train as far as Grant Road station without a ticket.

CHEATING AND CRIMINAL BREACH OF TRUST.—On Saturday, a Mahomedan cloth merchant, named Issubhoy Dadabhoy, appeared before Mr. W. Webb, at the Girgaum Police Court, and obtained a warrant for the arrest of Narrooba bin Bappoo Nergoodee, charging him with cheating and criminal breach of trust in respect of 15 *sarees*, of the value of Rs. 75, alleged to have been purchased from accused on a promise to pay for the same on delivery, whereas he absconded on receiving the said articles.

THEFT.—A Hindoo woman, named Chotabai, residing at Chunam Kilo Lane, appeared before Mr. W. Webb on Saturday last, and obtained warrant for the arrest of Bhagee, woman, and Shaw Narayen Goolje, charging them with theft of sundry gold and silver ornaments and also cash of the collective value of Rs. 740. It appears that the first accused is complainant's daughter, and the second accused was a neighbour. About a month ago the daughter absconded, taking with her the said ornaments and cash, and a few days after the second accused also absconded. The complainant had now received information that both the accused are living together in a village near Jubbulpore.

THE TOWN DUES.—A deputation of about 50 influential native merchants, headed by Mr. Hassumbhoy Visnam, of Messrs. Visnam Ebrahim and Co., and a member of the Municipal Corporation, met the Committee of the Bombay Chamber of Commerce by appointment on Friday to lay before them certain objections which the merchants of Bombay entertain to the proposed transfer of the Town Dues collections to the Custom House authorities, and to point out the great facilities in the collection now experienced by merchants at the hands of the Port Trust official. Mr. Hassumbhoy handed the Committee a detailed statement of the objections entertained by the deputation for the information of the Chamber. The Committee thanked the gentlemen for the information they had furnished, when Mr. Hassumbhoy and the other members of the deputation retired.

A TUMULTUOUS MEETING OF SHAREHOLDERS.

THE CHAIRMAN HISSED OUT.

THE residents of Church Gate Street have seldom before been startled out of their propriety by any occurrence within the memory of the oldest inhabitant as they were on Saturday afternoon last. Men, women, and children had their curiosity sharpened to learn the cause of the unusual excitement that prevailed in, and the noises which proceeded from, a house in the street. The windows and doorways of the other houses were crowded by eager spectators, whose attention was riveted on the building in question. The line of carriage standing in the road near the house was long, and was unaccountable by the ordinary course of business affairs; but more unaccountable by far were the causes which had led to the brewing of a storm inside the building. The rush of excited persons into the house; the sound of feet upon the stairs; that maddening old staircase creak; the clapping of hands; the shouts; the hooting and hissing, &c., might have led a stranger to suspect that the premises had been taken forcible possession of by a set of lunatics to place before you in the morning. And the stranger would not have been far afield in his conclusion; for the deportment of some of the principal actors in the transactions of the afternoon was little better than that of madmen. The occasion which gave rise to all the hubbub was a meeting of the holding of the fourth annual meeting of shareholders of the New Dhurumsey Poonjbhoy Spinning and Weaving Company, which has its registered office on the premises in Church Gate Street occupied by Messrs. Merwanjee Framjee Pandey and Co., the agents. A few days ago they issued to the shareholders a "blue book" vindicating their character from the aspersions levelled at them, and making the most serious imputations against the good faith and honesty of certain persons by name, who have had at one time or another the management of the affairs of the company in their hands,—among others, against Mr. Cassumbhoy Dhurumsey, who, under an agreement, receive one-half the commission earned by Messrs. Merwanjee Framjee and Co. as agents.

Mr. Nusserwanjee Ardasir Wadia, chairman of the board of directors, presided at the meeting. The other members of the board are Messrs. Nowrojee Manockjee Wadia, Nusserwanjee Merwanjee Pandey, and Pestonjee Cowasjee, the last of whom was absent from Bombay. The business before the meeting was stated in the notice-paper to be as follows:—1. To receive the directors' report and the balance-sheet and auditors' report and to pass the last-named yearly audited balance sheets made up to 31st December 1877 and 30th June 1878 respectively. 2. To appoint two directors, one in place of Mr. Jehangir Rustomjee Modi whose term of office expires, and another in place of the director who retires from office but is eligible for re-election. 3. To appoint auditors for the current year and to fix their remuneration. Mr. Smith and Mr. Frere (of Messrs. Fletcher and Smith, solicitors to the company) were present.

The Chairman.—Gentlemen, I am very sorry to inform you—

A Voice.—Very!

The Chairman.—Who is that? I am very sorry to inform you that the directors' report to be laid before the meeting to-day cannot be placed before you. On the 14th October last Mr. Pestonjee Cowasjee, a director, said he was going to Matheran and would not be back before the 7th inst. We fixed a meeting of the board of directors for that day in order to approve of the directors' report before it can be placed before the shareholders. Mr. Pestonjee did not return on the 7th, and we had the meeting for the 8th inst. On the latter date Mr. Nusserwanjee Merwanjee Pandey did not attend the board's meeting because, we were told, he was "sick." I and Mr. Nowrojee Manockjee Wadia arranged that the board's meeting should be held this (Saturday) afternoon. We came to the company's office and sent for Nusserwanjee, who was at the office but declined to come, saying he was otherwise engaged. As the directors could not proceed upon the report, the report is not ready to be placed before you. We therefore ask you to do some of the other work mentioned in the notice and give us a third director to form a quorum; and we might then adjourn the meeting until Thursday next.

Mr. Nusserwanjee Panday (excitedly.)—Let me say two words, gentlemen. If the directors' report is not ready, what is the use of doing any other work? How can we do it? The report must be adopted by the old directors; for a new director would not understand the real state of affairs; and the chairman, taking advantage of his inexperience, hopes to get him to agree to the report. Mr. Jehangir Rustomjee Modi, an old director, disgusted with the conduct of the other directors, has resigned; and he must be asked to rejoin the board.

The Chairman rose, taking up in his hand a wooden ruler that was lying on the table before him.—You have no right to say that—

This had the effect which a red rag has upon a bull. Up rose, fronting the chairman, a number of infuriated Parsees who struck the table before the chairman with the burden of whose screaming was "let him speak." One man questioned the right of the chairman to prevent the agent (Mr. Nusserwanjee Panday) from speaking; while another gave vent to his feelings for the loss which the shareholders of the company had brought him.

The Chairman (smiling.)—This was to be expected.

Mr. Nusserwanjee Panday—Gentlemen, don't make a noise, but hear me. There is no good in kicking up a row. Why, I hold the highest opinion of Mr. Rowe. The idea of my calling him an impostor is perfectly absurd.

Mr. Nowrojee—Mr. Kirkham will find this to be reported in the *Bombay Gazette* of the 4th October 1877.

Mr. Kirkham—I beg to say most distinctly that even in the year 1877, I never regarded Mr. Rowe as an impostor. I hold the highest opinion of him.

The Chairman (to Mr. Nowrojee)—If these remarks of yours about Mr. Kirkham are apropos to any motion you may have to make,—if you think it necessary to bring them forward for any reason of course subject to the approval of the members present, you may go on; but I hope you will avoid irrelevant matter and conversation which will lead to no profit.

Mr. Nowrojee said he had been induced to make these remarks in consequence of the principle which Mr. Kirkham had laid down in his speech the day before yesterday. He wanted to dictate the principle to me and all other members of the Corporation, that a member of the Corporation has no right to praise or censure any municipal officer, that that is simply the duty of the Municipal Commissioner, and we, as members of the Corporation, have no right to interfere in the matter.

Mr. Kirkham (to the Chairman)—I think I am entitled to see you to read that (the newspaper

THACKER AND CO., LIMITED,
ESPLANADE HOTEL, BOMBAY.

GRIFFITHS' NEW ZINC WHITE PAINT possesses the following advantages over White Lead and Oxide Zinc:—
Covers 100 per cent. more than Oxide Zinc.
Do. 25 do. do. White Lead.
It retains its whiteness under all conditions.
Will stand 500 degrees of heat.
Will never blister.
Is non-poisonous. Has no smell.
Has no chemical action upon metals.
This substitute for White Lead received the highest praise at meetings of Society of Arts, London; and Social Science Congress; is used by English and German Governments.
The following are a few extracts from numerous Reports already received:—
PROFESSOR PHIPSON, says: "It is one of the most ingenious and useful discoveries of modern times."
PROFESSOR BARFF, M.A., Lecturer on Paints and Colours to Society of Arts, Chemist to Royal Academy, &c.—"Has great body, covers well, absolutely resists the action of foul air, a red heat will not permanently alter its appearance, will always retain its opacity."
JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c., &c.—"Much more stable than White Lead."
LUTSCHAUNIG & Co., Liverpool Assay Office.—"Body dense and opaque, covers better than White Lead. Sulphuretted hydrogen has no effect upon it, does not blister, absolutely neutral towards iron, &c. will entirely supersede White Lead."
T. A. BRITTON, late Surveyor to the Metropolitan Board of Works.—"Superior to any other similar substance I have ever met with—is a pure white, retains its opacity, is not affected by foul air, has a good body."
J. H. & S. JOHNSON, Oil and Paint Merchants, Liverpool.—"Has the body of Lead, but does not tarnish like it."
F. A. BARROW, White Lead Merchant, 191, Hope-str et, Glasgow.—"Covers better and a greater surface, and in colour is superior to White Lead."
C. H. TOZER, Practical Decorator, &c., 56, Treherne road, London.—"The best thing that has been brought under my notice."
G. W. BREWER, Decorator, 54, Crawshay-road, London.—"A beautiful White, far superior to White Lead. Will mix with colours White Lead destroys."
W. MALE, Painter, Upton.—"Does not blister with a degree of heat that destroys Lead."

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.

The Elms, North Cheam, Surrey, S. 4th March, 1875.
"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature about the size of the palm of the hand, and was induced to try your Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obstinate sores on the body. After using two bottles, I became much better, and continued it up to the tenth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.
"You are at liberty to use this letter in any way you think proper, for the benefit of others.
"Faithfully yours,
"THOMAS WATTS"
"To Mr F. J. Clarke."
Sold in Bottles 2s. 6d. each, and in Cases, containing six times the quantity, 11s. each—sufficient to effect a permanent cure in the great majority of long-standing cases, BY ALL CHEMISTS, and PATENT MEDICINE VENDORS throughout the world.
